Coronavirus Update: Telebriefing for Gyms and Fitness Centers **Public Health Officials Provide Update on Novel Coronavirus (COVID-19)**

Los Angeles County continues making progress in reducing the average number of new COVID cases and hospitalizations. Last week, the 7-day average of cases decreased 13 percent from the previous week. If the County continues this downward trend, it is very possible that it will reach the threshold of the Red Tier in the State's Blueprint for a Safer Economy plan sometime this week. Once this happens, the County will need to stay in that tier for two consecutive weeks to be eligible for any reopenings allowed in this tier. Public Health will conduct a telebriefing to update you on the latest COVID-19 response, go through any updates of the Health Officer Order, and answer your questions and listen to your feedback.
