

TOPANGA

SMALL BUSINESS WILDFIRE RECOVERY

If you own a small business in Topanga Canyon and have been affected by recent wildfires, road closures, evacuations, or loss of business due to the devastation in neighboring communities like Palisades and Malibu — we need to hear from you!

Participation is easy. Let's stand together for recovery!

Step 1:

Start by completing the survey, where you'll be added to the Business Recovery Network. We are gathering this information for unmet needs for all Topanga to more fully understand the impact of the fire, evacuation, and road closures on our local businesses. With this info, we can build a strong case to request additional economic aid and resources from state and county officials.

****Privacy is key—All survey data will be anonymized and encrypted.**

NEW DEADLINE: MAY 19th

Scan QR code to take the survey:

Email us at **topangabusinessrecovery@gmail.com** with any questions.

Step 2:

Social Media: We are partnering with local organizations to create a campaign that will highlight businesses who need support via social media. Ensure your business is visible, included, and part of the recovery conversation!

Together, we can build not only a recovery for Topanga but also a foundation of strength for the future!

Support the Effort!

Please let us know if you can support us by volunteering on this campaign.
